Usability of error messages for introductory students

Paul Andrew Schliep

Division of Science and Mathematics University of Minnesota, Morris Morris, Minnesota, USA

25 April 2015 University of Minnesota, Morris

Importance of error messages

- Error messages are important tool for beginner programmers
 - They are the main interaction between the system and the user
- Unhelpful error messages impose learning difficulties, especially for new programmers
- Error messages with poor usability can lead the user down the wrong path

Goals of an error message

Acknowledgments

I would like to thank the following people:

- My advisor, Elena Machkasova, for helping with my senior seminar and useful feedback
- Friends and family for attending
- Myself, for writing the paper and doing this presentation

Thanks!

Thank you for your time and attention!
